Hi Catherine,

First of all, do you want to make a plan to meet for coffee or lunch? They must allow you guys to eat! We can go Dutch!

Secondly, I'm sure you've been inundated with complaints about the traffic and parking problems, now that Runyon has reopened.

I think I could help you assemble a small team of neighbors, blessed with common sense and calm demeanors, who might be able to help you and your team at CD4 come up with a few options to improve the current situation, and which might also be better received by the community than a valet parking service, and bus drop-off sites, near the FULLER entrance.

We can organize this under the Parks Committee of the Neighborhood Council perhaps...

This valet and bus stop-off plan has already resulted in problems, including traffic jams for those of us who live nearby, and who MUST pass by Franklin and Fuller EVERY DAY.

There are too many buses and vans carting around tourists already, and, many of these are not licensed and are unsafe.

If emergency vehicles needed to have access to the Fuller Gate, the level of traffic existing now, without more buses and drop-off congestion, would impair them greatly.

People go to Runyon to hike. It's not the Mona Lisa, it's a place to walk.

So, it seems reasonable to educate our visitors that their walk will begin a block or two from the park's entrance. We can organize a plan, with a few street signs and fun factoids posted on them in small writing, (so you need to walk past to read them), as you approach the gate. This is just one idea, I'm sure we can find other "role model" cities that have managed the same problems by employing common sense solutions which will be easy and fun to implement.

My two cents anyway.

I'd love to discuss further.

Best,

Pam

Hi Catherine,

Sorry for a second email, but I wanted to clarify one point.

My sense is that the best way to allow the community to participate in evaluating options to reach a consensus about how to best solve the traffic and parking issues related to Runyon, and, to get "buy-in" from the community's many, sometimes competing, interests and constituents would be to form a group under the HHWNC PARKS and Open Space COMMITTEE to work with you and CD4.

Hundreds of residents, and the entire elected board of the HHWNC, have voiced their objection to FORC, and it's "closed-door" approach to leadership, and my suggestion is NOT to form a new group to assume their constitution, but to follow a different model, an inclusive approach, guided by the city charter, democratic principals, and building on our existing Neighborhood Council structure.

Hope that makes sense.

I look forward to hearing your thoughts. Please feel free to call me anytime.

Best,

Pam

Hi Pam -

Thanks for your thoughts, I would love to discuss more. Do you have sometime later this week, maybe Wednesday or Thursday?

Thanks!

Hi Catherine,

Wednesday works for me.

Lunch or coffee? You pick time and place, ok?

Best,

Pam
